Actor Bio:

Born in a small town in West Virginia on the border of Ohio. I was raised with 6 other brothers and sisters. Grew up around music all of my life where it was mandatory to learn an instrument...mine is drums, and congas. Although singing wasn't my specialty, I was blessed with the ability to write and recite (spoken word and rap). I also played basketball, soccer and ran track in high school as well as college. I took a break

from school and became a fire fighter in the army reserves and later went back to college while in the reserves. A few days past and I fell in love with acting and I am writing this chapter of my life now :)
